

January 2026

We are not enemies, but friends. We must not be enemies. Though passion may have strained, it must not break our bonds of affection. The mystic chords of memory, stretching from every battlefield, and patriot grave, to every living heart and hearthstone, all over this broad land, will yet swell the chorus of the Union, when again touched, as surely they will be, by the better angels of our nature."

June 2026

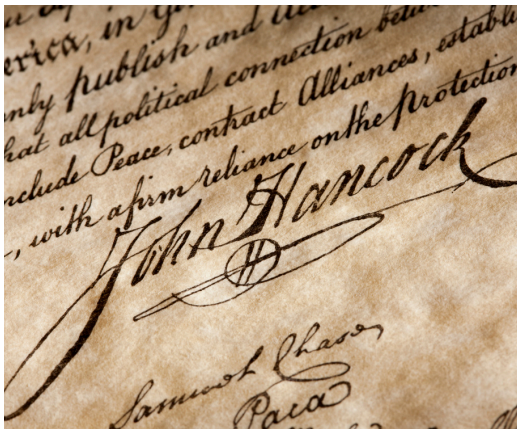

"The biggest challenge facing the great teachers and communicators of history is not to teach history itself, nor even the lessons of history, but why history matters. How to ignite the first spark of the will o' the wisp, the Jack o' lantern, the ignis fatuus [foolish fire] beloved of poets, which lights up one source of history and then another, zigzagging across the marsh, connecting and linking and writing bright words across the dark face of the present. There's no phrase I can come up with that will encapsulate in a winning sound-bite why history matters. We know that history matters, we know that it is thrilling, absorbing, fascinating, delightful and infuriating, that it is life."

December 2026

"At this time of year, when the nights grow longer and often colder, our lives are brightened and our hearts warmed by the lights of Christmas. So much light surrounds our memories and celebration of Christmas: candlelight in the windows, colored lights twinkling on the tree, children's faces lit with a joy that is reflected in their parents' eyes. The beloved Christmas story itself is a story of light for, as the Gospel of John tells us, Jesus came into the world as 'the true light' that illumines all humankind. Almost 2,000 years later, that light still shines amid the dark places of our world. ... May all who celebrate Christmas this year rejoice in the special gifts of light that it brings: the love that warms our hearts, the faith that lights our journey and the hope that promises us a bright future."
